I have known Tish and his family for many years. As an electrical contractor and an owner of a small business, I have had the privilege of working with Tish, on projects that are passionate to him. I can see the drive in him, to improve the community and surrounding areas, bringing areas back to life, for others to enjoy. "Eastwood Community League", one of the projects we worked together on, he saw a vision for it, and executed it. Brought it up to code for the community to use safely. Seeing this passion, drive, for someone's community, Tish would make an excellent candidate for Councillor of Ward 6

John Grimmon
